

Identify • Define • Solve

IDS Fast Track gives teams everything they need to put good ideas into action within 60 days or less!

IDS Fast Track Problem-solving Master Class training with Coach and Team Leader guides

Gestaltix® IDS Solve your own workplace problems.

The Gestaltix® IDS (Identify, Define, Solve) cuts through much of the complexity often encountered in problem-solving and performance improvement methodologies and focuses on the key practical tools and know-how that can be readily implemented within workplaces.

IDS Fast Track places the IDS approach within a structured, guided, process that ensures sufficient participation, authority and support to accelerate implementation of improvements to work areas and work practices.

With Fast Track, teams learn together and become self-empowered by solving real problems and making valuable improvements — faster.

IDS Fast Track Master Class

A one-day, hands-on class that will provide your coaches with the know-how and materials to confidently deliver IDS Fast Track and improvement implementation sessions to your teams. This makes it practical for you to harness the expertise of people at all levels in your organisation.

Coach and Team Leader Guides

Comprehensive guides for your coaches and team leaders to help your teams:

- surface and implement Do-now opportunities
- capture and replicate proven practices
- make changes to implement new solutions across existing work practices

Process Simulation Kit and templates

A kit and templates so your teams can immediately:

- coach or lead a Fast Track team
- Work on the right process improvements
- Implement improvements to work areas and work practices

Gestaltix® IDS Fast Track

STRUCTURED IMPROVEMENT IMPLEMENTATION

IDS Fast Track accelerates implementation by structuring preparation, participation, support and authority for an initiative. The approach can be adapted to suit the experience level of the team with key roles of Coach and Team Leader supported through Master Class training and comprehensive guides.

Master Class Guide

A guide covering the delivery of IDS tools and training:

- » preparing successful and engaging IDS sessions
- » facilitating process simulation rounds and transitioning to tools
- » participant-centred activities to introduce eleven problem-solving chart tools.

Coach Guide

A guide to help coaches initiate and facilitate a Fast Track process:

- » detailed preparation for each process step
- » meeting agendas, success checklists, mission and charter templates
- » behavioural audits and expert guidance to ensure effective interactions with all parties.

Team Leader Guide

A workbook to help leaders effectively lead their teams through a Fast Track process:

- » preparations for team interactions and sprints
- » templates for creating team charter and mission
- » tools for helping teams prioritise improvement ideas and solutions
- » example team invites and rewards, meeting agendas, retrospective planner.

Process Simulation Kit

A specially selected set of LEGO® construction components, assembly process and customer cards, that work together to provide practical demonstrations of the key problem-solving tools and techniques used in Fast Track initiatives.
